Closing the

High cost consumer credit

What it is

1. Short-term payday or long-term installment loans secured by wages, or automobile title loans secured by a car or truck. Other consumer finance companies make unsecured loans.

Why it is a problem

1. Triple digit interest rates mean borrowers pay as much in interest as they originally borrowed.
2. Loans secured by wages or direct deposit means unsecured consumer lenders get paid before the mortgage, utilities, or any other creditor.
3. Frequent refinancing means short-term debt becomes a long-term problem.
