

RESIDENTIAL LENDING REPORT FOR
THE NORTHERN TRUST BANK OF LAKE FOREST
CRA AREA

By

David Flax-Hatch

December, 1988

TABLE OF CONTENTS

- I. Total Lending By Type and Average Loan Size, Mortgage Bankers, Banks and Savings and Loans, and All Lenders in Lake Forest, Lake Bluff, Waukegan, North Chicago
 1. Lake Forest
 2. Lake Bluff
 3. Waukegan
 4. North Chicago
- II. Conventional Lending and FHA/VA Lending By Type of Lender for Lake Forest, Lake Bluff, Waukegan and North Chicago
- III. Total Loan Dollars By Housing Unit and By Owner-Occupied Unit in Lake Forest, Lake Bluff, Waukegan and North Chicago
- IV. Leading Lending Institutions By Type of Institution in Lake Forest, Lake Bluff, Waukegan and North Chicago
- V. 1980 Median Household Income of CRA Census Tracts As A Percent of SMSA Median
- VI. 1980 Median Household Income of Lake Forest, Lake Bluff, Waukegan and North Chicago And Component Tracts As a Percent of Median For the SMSA
- VII. Lending of Banks and Savings and Loan Associations, 1985
 1. Lending Summary x Census Tract
 2. Lending in Census Tracts x Individual Lender
- VIII. Lending of Banks and Savings and Loan Associations, 1986
 1. Lending Summary x Census Tract
 2. Lending in Census Tracts x Individual Lender
- IX. Lending of Mortgage Bankers, 1985
 1. Lending Summary x Census Tract
 2. Lending in Census Tracts x Individual Lender
- X. Lending of Mortgage Bankers, 1986

WHAT THIS REPORT CONTAINS

Under contract with the Northern Trust Bank of Lake Forest, the Woodstock Institute has prepared residential lending data reports for the service area defined in its Community Reinvestment Act statement. These reports include residential lending data for banks, savings and loan associations, and mortgage companies in fifty-one census tracts located within the CRA area of Northern Trust Bank of Lake Forest. This data is compiled from the bank and savings and loan association disclosure reports required by the federal Home Mortgage Disclosure Act and from mortgage banker disclosure reports required by the Illinois Residential Mortgage Licensee Act.

This report contains the following information:

- * The number and dollar amount of the total residential loans, FHA/VA mortgages, conventional single-family mortgages, multifamily loans and home improvement loans made in each of the 51 census tracts by banks and savings and loan associations in 1985 and in 1986.
- * The number and dollar amount of the total residential loans, FHA/VA mortgages, conventional mortgages, and home improvement loans made in each of the census tracts by mortgage bankers in 1985 and in 1986.
- * A listing of the median household incomes of each of the 51 census tracts in 1980 as a percentage to the 1980 median household income for the Chicago Standard Metropolitan Statistical Area (SMSA).
- * A table representing the leading residential lenders in Waukegan, North Chicago, Lake Bluff and Lake Forest among depository institutions (banks/savings and loan associations) and mortgage banking companies in 1985 and 1986 combined.
- * A table representing the overall residential lending, the percentage of lending for FHA/VA loans, and the average amount of FHA/VA and conventional mortgage loans of depository institutions and mortgage bankers in Waukegan, North Chicago, Lake Bluff and Lake Forest in 1985 and 1986 combined.
- * A table representing total residential loan dollars per housing unit and per owner occupied unit in Waukegan, North Chicago, Lake Bluff and Lake Forest in 1985 and 1986 combined.

- * A table representing the median household incomes of Waukegan, North Chicago, Lake Bluff and Lake Forest and the individual census tracts within each as compared to the median for the Chicago SMSA.

THE DATA

The lending data for banks and savings and loan associations was tabulated from HMDA data compiled by the Federal Reserve System. The data for mortgage bankers was tabulated from mortgage banker data files compiled by the Illinois Department of Savings and Loan Associations. The data was "cleaned" by a standard statistical program developed by the Federal Reserve System which deletes data misreported for non-existent census tracts and data that are statistically unsound and outside the realm of plausibility. A total number of 98 loans and \$7,733,000 representing 1.3% of reported loans the 1.3% of loan dollars were deleted from the HMDA data. A total of number of 362 loans and \$6,553,000 were deleted from the mortgage banker data representing 3.3% of reported mortgage banker loans and 1.9% of loan dollars.

Several mortgage banking companies reported data according to 1970 rather than 1980 census tract divisions. In 1980 five census tracts were subdivided.

This misreporting by 1970 tract units does not affect the quality of the data because the subdivided tracts remain wholly within the old 1970 tract units designations. These data, therefore, were not deleted from the data presented in these reports. A total of number 904 loans and \$68,106,000 or 22.4% of loans and 20% of loan dollars were reported by the 1970 designations instead of the 1980 subdivisions. Following is a list of these subdivided tracts:

1970 Tract	1980 Tracts
8615	8615.01 and 8615.02
8618	8618.01 and 8601.02
8641	8641.01 and 8641.02
8645	8645.01, 8645.02, 8645.03
	8645.04 and 8645.05
8649	8649.01 and 8649.02

HOW TO USE THE DATA

These reports can be useful in analyzing Northern Trust Bank of Lake Forest's opportunities for lending to low- and moderate-income communities within its CRA service area.

The tables presenting median household income identify those census tracts and municipalities which best represent low- and moderate communities with which the Community Reinvestment Act is concerned. These can be targeted for marketing efforts tailored to meet CRA responsibilities.

Further, these reports indicate the actual volume of lending in these tracts compared to other tracts, a rough measure of the relative level of service that they presently enjoy. These reports also indicate which institutions are most active in lending within each of these census tracts.

A series of tables present data on lending in four municipalities within the Northern Trust CRA area, Lake Forest, Lake Bluff, Waukegan and North Chicago. Lake Forest and Lake Bluff were selected because they represent Northern Trust's home base and primary lending area. It also represents an affluent area assumed to be adequately credit served. Waukegan and North Chicago were selected because they represent the two municipalities within the CRA area which have the highest concentration of households and census tracts below or only slightly above the median household income for the Chicago SMSA.

Aside from tracts in Waukegan and North Chicago only one tract (8,652) in Highwood was below the SMSA median (\$16,880 or 87%). Only four other tracts had median household incomes less than 125% above the median for the SMSA: tract 8,651 in Highwood (\$20,118 or 104%), tract 8654 in Highland Park (\$24,049 or 124%), tract 8640, located mostly in Mundelein (\$22,343 or 115%) and tract 8,645.01, split between Mundelein and Vernon Hills (\$24,001 or 124%). These tracts are worthy of attention, but because they collectively represent 10,277 households dispersed between these communities, compared to the 31,146 households concentrated in the cities of Waukegan and North Chicago, we have focussed on the later.
